ACADEMIC SESSION 2025-26

B.Tech. Computer Science & Engineering program by IBM is a 'Unique Global' initiative by the multinational IT Giant, to offer much needed applied information technology knowledge to graduating students, in various domains and futuristic technology areas for Indian & Foreign Meritorious Students. IBM's cutting-edge skilling programs will be delivered at LTSU in collaboration with National Skill Development Corporation (NSDC), New Delhi. IBM Innovation Centre for Education ensures that students learn industry-relevant applied skills through:

- ▶ Unique world-class in-depth learning content on emerging technologies.
- ▶ Strong emphasis on Live Projects, Live Labs through Project Based Learning (PBL).
- ▶ Emphasis on Industry oriented Curriculum, as per UGC guidelines & continuous Industry participation.
- ▶ Delivery is done through futuristic platform - 'Industry-Academia Collaboration Framework' in high end labs.
- ▶ Student participation in Regional, National and Global skill competitions.
- ▶ Special focus on skilling students in design thinking and using agile methodologies.

NSDC

- ▶ National Skill Development Corporation (NSDC) is an execution arm of Ministry of Skill Development & Entrepreneurship (MSDE), Govt. of India for all National and International skill development programs.

LTSU HIGHLIGHTS

- ▶ Established by Punjab Act no. 22 of 2021.
- ▶ Recognized by UGC New Delhi.
- ▶ First of its kind Industry Incubated Skill University in India with IBM as an Anchor Partner and TATA Technologies & Ansys as Industry Partners.
- ▶ 100+ Acres of campus with all amenities. Professionally managed university; Fully backed by
- ▶ Industry and Global leaders.
